

Printable Fosse Care

Fosse Septique Care Dear guest, welcome to our charming gîte As you embark on a memorable getaway, we kindly ask for your assistance in helping to maintain the health of our fosse septique (septic and drainage system). By avoiding the following, you'll be contributing to the well-being of our fosse septique:

1. **Non-Biodegradable Wastes:** To ensure the smooth functioning of our septic system, we kindly request that you refrain from disposing of non-biodegradable items such as plastics, diapers, and synthetic materials. These can disrupt the natural breakdown process.
2. **Cooking Oils and Grease:** While indulging in delicious culinary creations, we kindly ask that you avoid pouring excess cooking oils and grease down the drains. These substances can solidify within the septic system, potentially causing blockages.
3. **Harsh Chemicals:** As responsible stewards of the environment, we encourage you to steer clear of harsh chemicals like bleach, strong cleaning agents, and chemicals from personal care products. These can harm the beneficial bacteria essential for effective waste decomposition.
4. **Large Food Waste Amounts:** While the beauty of our surroundings may inspire culinary adventures, we kindly remind you to refrain from disposing of large quantities of food scraps, coffee grounds, or excessive oils in the sink. Moderation will help maintain optimal septic system performance.
5. **Excessive Water Usage:** Embracing the beauty of nature often involves conserving precious resources. Please be mindful of water consumption to prevent overloading our septic system. Conserving water contributes to the delicate balance necessary for efficient waste treatment. Your cooperation and understanding in following these guidelines will not only contribute to the preservation of our gîte's natural surroundings but also ensure a comfortable and enjoyable stay for all our cherished guests.

We sincerely thank you for being an integral part of our commitment to sustainability and responsible stewardship, and for helping us care for our fosse septique
